James Harris Made Head Of Slack Mining Company-F. H. Baack Vice President.

In the office of the Janesville Barb Wire company yesterday afternoon, the stockholders of the Slack Mining company, who own a mine near Mifflin in the lead and zinc zone of southwestern Wisconsin, met to organize and elect officers. James Harris was chosen president, F. H. Baack, vice-president, and W. D. Brown of Min-eral Point, secretary and treasurer. The company was incorporated under the laws of Wisconsin some time ago with a capital stock, fully paid of \$70,000. The mine has been opened and the owners expect in the near future to place a mill on the property and begin actual operations. The majority of stock is held by prominent business men of Janesville.

Reports from the growing districts prought into case last week Thurslay or Tuesday of this week and the labor of stripping is going merrily on. Some few crops have already been delivered, but the general reception of leaf at the warehouses of both Janesville and Edgerton will not commence until next week. There have been rumors that the 1905 leaf was considerably shed-burned, but the damage is believed now to have been entirely local and as a whole the crop will probably prove to be good From the present conditions of the binder market much money doubtless be realized from it.

"You are right, Captain Sercombe," I answered, being in my turn in command of myself, and I offer you my anology for the rudeness, but I am at least the master of my own servants; and Hood shall keep his distance and not hang about annoying my guests." With which I ordered him forthwith to the window, a command which he hastened to obey almost by anticipation.

I must say that this unpleasant eplsode at once changed the atmosphere of the room. On the whole, I did not recret this, as I conceived that we had perhaps reached the proper term of our familiarity with Sercombe. It was strange to see the instant revolution in our mutual attitudes. Whether Sercombe himself had been as easy as he had previously seemed, or whether he had acted a part for our benefit; I cannot say, but it is certain that now he. was charged with anxlety. Now and again his eyes, puffed and bloodshot, flickered uneasily on Hood, where the man stood in his corner, a memorial of black sobriety, and his demeanor was carefully under restraint. The situation became a little disagreeable, and I thought the time had arrived to end it.

"Captain Sercombe," Tosaid, quite formally, "I faucy our dinner, such as it is, is over, and if you will take no more wine perhaps we had better get "Certainly, sir," said the captain

Sercombe bit his lip, and after a glance at Hood, who still kept his attiinde "I understand vont feeling, gen tlemen," he replied; "and, in fact, T sympathize with it. But"-

He hesitated, and I began to perceive for the first time how far he was involved with the other and to what extent he was under his control. It was evident that he was chagrined by his

Hood turned obediently on his heel and made for the door. As it closed upon him Sercombe turned to us and broke out with embarrassment:

You are right, gentlemen. I agree with you. These things are better managed between gentlemen: But"-His perplexities struggled in evidence upon his face, yet he had an uncommon gift of recovering himself, which I had had occasion already to admire. and I was to admire him still more at this moment. "You will perceive, Mr. Greatorex," he said abruptly, but with a sudden suavity of voice, "that, as you have just pronounced, we have concluded our friendly dinner, and it is to business that we turn. I take it, from under his waistcoat he threw therefore, that we are no longer here it on the table in front of me. in the capacity of hosts and guests."

"I accept your theory." I answered. "Let us have him up, certainly."

Sheppard rose and when the man returned ushered him with some ceremony to the table, "A chair for Mr. Hood," he said, "Where will you sit. Mr. Hood-by the captain? That's right. Please make yourself comfortable. We have just enjoyed an excellent standing, Mr. Hood," he said sweetly. dinner very well served, Mr. Hood, but "If I had stopped to think I should I fear you are too late. Montgomery, have known that a man like yourself, a glass of wine for Mr. Hood. Basi- would only carry a weapon for some ness is business, and I never conduct good purpose. But I am a creature of a piece without the usual sherry."

If this elaborate irony disturbed Sercombe, as it seemed to do, it had no the dagger back in token of my trust effect upon Hood.

"Thank you, sir. I will stand, sir. No wine, thank you, sir." Such was his brief reception of the courtesies. He assumed a place at the back of

the captain, commanding a view of the table. Screembe spread his bands up-

"Gentlemen, let us show our cards,"

There was a mementary science, and then I was conscious of a slight bustle of excitement that stirred the room Into sound it Sheppard looked at me, and Montgomery's gaze was riveted upon, the captain. Sheppard coughed gently and sloped his wine.

"That is a very proper demand, Cap-Greatorex," said he snavely, "that I thin Sercombe," I said, "seeing that it It slowly aloud to the company; is what we are here for, but I hardly yet see my way clear to table all my tricks. Let us understand one another :hetter."

The captain did not color, as the might well have colored under this imcircumstances you will see that you plicit distrust. As I have said, he was singular in the partial hold he kept upon his gentility. Instead he laughed; but somewhat awkwardly.

"Li see" he answered and looked down at his hands, appearing to consider. Heilifted a big and somewhat clumsy hand and scratched his swollen cheek, smoothing a long wisp of red hair across his naked crown. "I cannot pretend to misunderstand you," he. declared at last and shot a glance aside at Hood, who had fallen slightly away from the table and stood intently watching the scene. But I think it is somewhat unnecessary, Mr. Greatorex," he said again very nwkwardly, and he laughed shortly, and again blaceves flew to Hood, directing at him, as it seemed to me in that light, a glance of warning, of appeal, ven of fear.

"No doubt," said I in return, "but you must remember that I have already had experience of your possibilities. But come; we shall get no further unless we can strike a compromise wiff you will produce your fragment of the document -

"You assume that I have it." he broke ing with this discordant laught "You are taking a good deal for granted." "I assume nothing." said I. "Do not iet us bandy words. here'

iet us bandy words in Sercombe lifted the decanter which stood at his elbow and filled his glass with a hand that shook. He drained it at a draft and turned to Hood. The hinkeeper glided to dis chair, and something passed from hand to hand. Sercombe put the torn fragment upon the table before him. He looked at meras it inviting me to a similar domonstrution. We were to proceed by

moves, then by the B have no evidence that this is the document," I objected.

"Nor I, in your case," he reforted. "We will assented. "We will take at point by point, but I fear we shall find it a tedlous job."

I drew the paper from my pocket and laid it before me. At the other end of the tuble I could see Sercombe's green eyes bulging in his head as they fastened tipout the white thing under my hand. His mouth dropped, and a portion of the glow receded from his face. Montgoinery stared. A tense feeling stiffened the attention of all. I felt my heart throb in the silence, and then suddenly there was a sharp exclamailon from Sheppard, and the next moment I was conscious of a clatter and: wo figures struggling beside me. The affair dasted but a few seconds, and then Hood was hurled deftly back against the window, and Sheppard flung upon the floor with a crash a long Spanish dagger.

A hush fell on the room. Sercombe turned pale, and his eyes shifted uneasily. Had it been murder that was intended? If so, I could have sworn that Sercombe was no party to it.

"It appears that we can't do quite without the law," said Slieppard, placing his heel upon the weapon. Hood. breathing deeply, remained in the shadows of the window.

"What does this mean?" I asked."

Hood, black and lean, but immovable ns to feature, stepped from his corner. "I beg your pardon, sir," he explained but I suppose the gentleman objects to my wearing it. It isn't a pretty weapon, sir. exactly, but I have found it useful, sir. I thought there would he no objection. Mr. Greatorex, sir, more especially as, the gentleman here carries in revolver." He, indicated Montgomery, who grew red and stam mered:

"I-beg your pardon, Awfully sorry I-I-here it is," and extracting a Colt

Sheppard and T exchanged glances. "Come, sir," said Sercombe's voice rising in an imperative key. "but this remarkable scene requires an explana tion. Why may not Mr. Hood wear what weapon he likes?"

"Was there anything?" I asked of Sheppard in a whisper.,

He frowned in embarrassment. "To have waited for anything would have been too late," be answered in the same tone. "I had to forestall," guessed, but I'll swear I guessed right I can throve it. I caught the gleam, Then he turned quickly from me and picking up the dagger offered it to Hood. 'I am sorry for this misunderimpulse, full of mistakes, but of a warm heart below all, and I offer you in you? with which he sat himself down in his seat and ostentatiously played with Montgomery's revolver for the rest of the interview.

"Come, come. That is well said and well ended," said the captain genially, and he was evidently very much relieved at the conclusion of this scene "And now, Mr. Greatorex, and to show "I that "it" is not both sides that are so nunecessarily suspicious, if you will be without charge.

so good as to take this paper from me ! I will trust you to read out the whole

This proposal, coming on the top of what had happened between us, astounded us all, as you may suppose. But Sercombe was rarely at a loss for some amazing movement, and he knew well enough that he was perfectly safe, with me, whereas he was also aware that I knew I was absolutely unsafe with him. Therefore be assumod a golder air of courtesy and lofty faith, as between gentlemen. But these reflections are not to the point for there was I, with the two parts of the precious document in my hands and four pairs of bright eves burning upon my face with their eager interrogation. You may conjecture my enfotious and the way my pulse ran. I spread the paper T had received from Sercombe upon, the other, smoothed it with the back of a kulfe and, forthwith deciphering the following composition, read

#### TWENTY-ONE VICTIMS OF MINE EXPLOSION

Eighteen Negroes and Three White Men Are Entombed in Shaft in West Virginia.

Bluefields, W. Va., Jan. 5 -Twentyone miners in the Coaldale company's shaft at Coaldale W. Vu., were probably instantly killed by an explosion that took place there about noon Thursday. There were three white men and eighteen colored men entombed and no hope is held cut that any of them escaped death. The explosion was of terrific force and caused intense excitement throughout the surrounding country many people believing an earthquake had occurred. The fans, mining cars and most of the property used in the mines are supposed to have been blown to

# **CONTAGIOUS BLOOD POISON** KING OF ALL DISEASES

To Contagious Blood Poison rightfully belongs the name King of all Diseases. It is the most powerful of all human ailments corrupting every part of the body and wrecking and ruining the lives of those unfortunate Short, 67, and Miss Helen Clark, 70, enough to contract it. When the first sign appears in the form of an insig climbed to the top of Little Black. nificant sore or ulcer, few persons realize that the deadly virus has entered the blood; but so potent is the poison that one drop will vitiate and polinte a minister who accompanied them. the purest and healthiest blood, and in a short time the degrading and horrible symptoms begin to appear. The mouth and throat ulcerate, the glands in the neck and groins swell, the hair and eye-brows fall out, copper-colored Spreckels tug Relief has left to meet spots appear on the body, and in the latter stages of the disease the poison. even works down and destroys the bones. No other disease is so highly which is coming home in tow of the contagious, and many have contracted it and suffered its awful consequences through a friendly hand-shake, handling the clothing of one afflicted with it, or drinking from the same vessel. S. S., The King of Blood Purifiers, is the only cure for Contagious Blood Poison. It goes down into the circulation and forces out every particle of the virus. It is nature's antidote for this peculiar poison, and cures the disease

in all its stages, and cures it permanently. S. S. ## GREAT BARGAIN FOR THE RIGHT MAN

#### A Fine, Large Stock and Dairy Farm in Webster County, Missouri,

150 miles south of St. Louis, where the winter season for feeding stock never exceeds eight weeks, and as a rule about six weeks is the limit of anything thatwould be called cold weather in Wisconsin. Climate and water could not be better. A great fruit and poultry country. In fact anything can be produced there that can be anywhere. Help is cheap and the average price per month for good men is from \$16 to \$18 per month with board, and \$1.00 to \$1.25 per day without board. The great

point in the argument is, you can get just as much for your produce there as you can here, at about two-thirds of the cost of same to produce, or less. Good churches and schools, also good society, and as a rule honest

This farm is located 8 miles from a good town on the Frisco R. R., between St. Louis and Springfield, Mo., and there is a store and postoffice about one mile from the farm. This property is owned by a man of 84 years of age, who wants to sell and move to town—the reason for selling. The farm consists of 600 acres: 400 in cultivation, 200 in pasture and timber. Two small spring creeks cross the land, making fine water for stock. The land is some rolling, but not hilly. The buildings are: one 6-room house with cellar and summer kitchen of stone 18x20; 4 tenant houses, 1 barn 60x70 for horses and mules, 1 new barn 114x60 with cement floors, stalls for 84 head of stock; stone granery and hen house 16x25; stone wood house 18x20; 1 pair of 4 ton scales. Personal property: 1 pair of mules worth \$400, 2 pair of horses worth \$500, 130 head of cattle-84 of these are fine milk cows-balance young stock of all kinds; 1 manure, spreader, 2 cultivatorsnew, 2 wagons, 1 surrey, 1 disk harrow, 1 smoothing harrow, I 6-horse power gasoline engine, 1 milk separator—capacity 850 lbs, per hour; 1 80 gallon churn with shafting, 2 mowers, 1 rake, 1 4 foot grindstone, I blacksmith forge and anvil, I Duplex corn and cob mill for feed grinding. All of the above personal property goes with farm at \$46 per acre, it sold soon, or you can buy the farm without stock and tools, at a price. less the value of stock and tools.

I can also sell you smaller farms, of any size, if wanted. I have a nice 373 acre farm at \$22.50 per acre. Prices range on improved farms all the way from \$15 to \$60 per acre for small farms. About \$20 to \$30 buys a good place. Let me hear from you. Termsone half cash, balance time, Address
